

ITALFARAD

Short Company Profile

Founded in 1950, ITALFARAD specialises in manufacturing electrical capacitors for A.C. general applications, such as lighting, motor run and power factor correction (P.F.C.). Italfarad also produces low voltage (L.V.) fixed and automatic P.F.C. equipment switching the capacitors by electro mechanic components or by static system. Italfarad P.F.C equipment is produced en masse using automatic and semiautomatic machinery.

The utilisation of highly reliable components guarantees a superior level of quality at extremely competitive prices. Quality has always been the primary objective of Italfarad: capacitors are IMQ EN 60831-1/2 IEC 831-1/2 approved. The P.F.C. equipment conforms to test carried out by CESI in accordance with CEI EN 60439-1 standards. In 1993, Italfarad was awarded a quality system certificate according to UNI EN ISO 9001 standards; this certificate has been updated to UNI EN ISO 9001:2000. Italfarad have succeeded in obtaining a share of the world market.

At present Italfarad exports to more than 90 countries all over the world.
